Viewing All APs

You can view a summary of all APs that you have added to your RUCKUS One account and view their statuses.
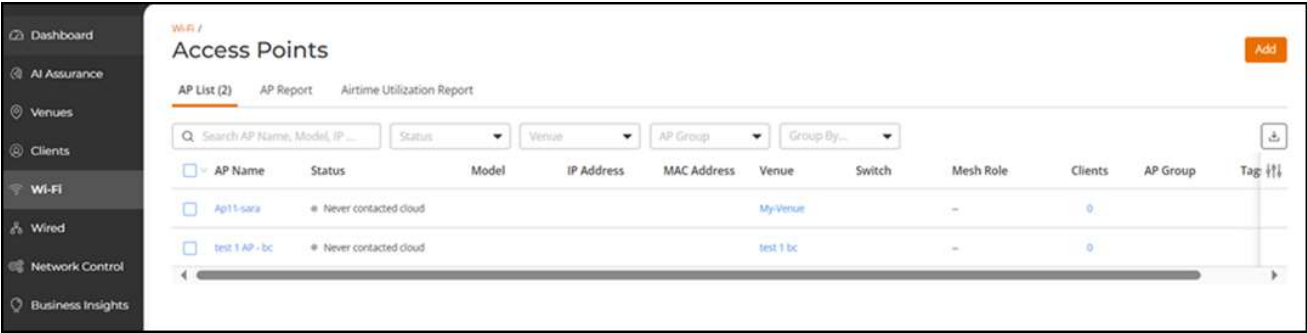

Complete the following steps to view a list of all APs that have been added to RUCKUS One.
The UI includes a search function, several filters, and the ability for you to customize the table content and sort order:

- The **Search** field allows you to enter the AP name, model, IP address, MAC address, tags, or serial number to display only matching APs.

- Filters allow further narrowing of the AP list by **Status**, **Venue**, and **AP Group**. You may use one or more of these filters simultaneously. When any filter is being used, a **Clear Filters** button appears, allowing for a quick reset to the full list of all APs.

- The **Group By** function allows you to organize table entries by AP status, model, or AP Group, and results in displaying an additional informational row reflecting the number of member APs, the number of incidents in the past 24 hours, the number of connected clients, and the number of associated wireless networks.

- The sort function allows you to sort the table list by the content of a specific column by clicking on the specific column header.

- The ⚙ icon gives you access to select the columns displayed in the table, so you can view exactly the information you need. Note that the default column selections do not include all available columns, so take a moment to view the selections and customize as per your needs.

- Click the ⬇ icon gives you the ability to download the AP list, in CSV format, to your local device.

1. On the navigation bar, click **Wi-Fi** > (and then)**Access Points** > (and then) **Access Point List**.

The **Access Points** page is displayed. For more information, refer to *AP List Overview (GUID-573BE907-AC71-4113-A0E4-FB9186F519C6.html#GUID-573BE907-AC71-4113-A0E4-FB9186F519C6__SECTION_RZN_M1Z_LBC)*.

Access Points Page

2. Click a specific **AP Name** to view detailed information about the AP. Refer to *Viewing AP Details (GUID-5C4EF343-9DC7-4540-B580-2E25DA2D0D4B.html)*.
